

WELCOME TO THE WESTON EDUCATION PARTNERSHIP

The Weston Federation of Schools forms part of the above Partnership. The Federation was formally launched in January 2004 and has the following members:

- Baytree Community Special School**
- Broadoak Community School** (applying for Maths & ICT specialist school status)
- Priory Community School** (Technology College)
- Westhaven Community Special School**
- Worle Community School** (Media & Arts College)
- Wyvern Community School** (Sports College)

WESTON FEDERATION — THE VISION

A Collegiate academy, open to all, with the learner at its centre and a focus on improving the achievement, attainment and progression of young people.

Our schools work together to provide high quality education by responding to the individual needs of learners and offering the widest possible choice. We are engaged in a curriculum development programme that extends the range and accessibility of the curriculum available to students and staff. All Federation schools have access to a specialist online revision facility to help students prepare for tests and examinations. Our Partnership with Weston College means that we are able to offer students an innovative and exciting 14-19 curriculum including A Level and Vocational Studies. This provides flexible provision to students at a critical stage of their education and transition to the world of work and higher education.

Weston
Education
Partnership

The Federation is developing a Virtual Learning Environment. This will enable staff to develop and share good practice and students to access their work online. The South West Grid for Learning PORTAL also plays host to a range of Federation communities including student groups across the Partnership.

Federation staff participate in high quality professional development and research supported by some of the country's premier league universities. We also work in partnership with the Teacher Training Agency to deliver innovative initial teacher training programmes encouraging and supporting new recruits into the profession. This continually renews thinking and practice on learning and teaching.

By working together we have increased the range and number of enrichment and extra curricular activities on offer. Students have the opportunity to study a range of additional GCSE subjects in a Federation School that may not necessarily be their own!

Our students have the opportunity to become members of the School Council and Student Parliament contributing to the direction and development of education in their schools.

This is a truly exciting time for education in Weston and we look forward to welcoming you to our community of schools
